Håfa adai General Paulino:

As per earlier discussions regarding the use of the Guam National Guard in community projects, we have come across potential projects which would benefit from the expertise and specialized training of our Guard members.

Along with representatives of the Department of Parks and Recreation, the Department of Public Works, the Bureau of Statistics and Plans, and the Agat Mayor's Office, we recently toured the Nimitz Beach Park in Agat. As you may be aware, the beachfront property is eroding at a rapid rate, and stakeholders continue to explore all options to prevent further erosion.

It is our belief that some of the proposed options could be handled by members of the Guard during their annual training. This is a great opportunity for them to further develop their skills while helping support the needs of the community.

Accordingly, we plan on conducting a roundtable meeting to further discuss this matter. We humbly request your attendance and participation so you may provide any information and recommendations.

We thank you for your cooperation in this matter, and we look forward to hearing from you.
